

SUMMARY OF EVENTS

OF THE

ADMINISTRATION OF THE SIROHI STATE,

WESTERN RAJPUTANA

for the Years 1898 and 1899 A. D.

1. This is the fifth report of the administration of Sirohi State since the Samvat year 1946. The last report published in April, 1898, contained statistics of every branch of the state upto the end of December, 1897. The same system is followed in this report also and it deals with the period ending with 31st December, 1899.

General Aspect.

2. As the country is described full well in the foregoing reports, it is needless to lengthen this report by recapitulating about it. The territorial extent remains the same as described in the last report. It may be stated here that the country lies between 24° and $25^{\circ}16'$ north latitude and $72^{\circ}2'$ and $73^{\circ}18'$ east longitude, and that the soil varies from rich black to poor sandy; it is full of hills and hillocks; and the principal hills are Mount Abu and Arawali.

Rainfall.

3. The following statement shows the amount of rainfall in the years under report as compared with that in the previous years.

	1895.		1896.		1897.		1898.		1899.	
	Inches.	Cents.	Inches.	Cents.	Inches.	Cents.	Inches.	Cents.	Inches.	Cents.
Sirohi ...	13	9	21	...	20	61	14	6	5	75

From the above statement it would appear that the rainfall during the years under report was far below that in the years 1896 and 1897; strictly speaking there were hardly any rains in the year 1899. As might have been expected the monsoon crops were necessarily low and the requirements of the state were very inadequately supplied. As it was apprehended the famine in its direst aspect made its appearance in the year 1899 and the

aspect which it bore became simply dreadful in the last quarter of the year. It was simply through the sympathetic efforts and untiring zeal of His Highness the Maharao Sahib Bahadoorji of Sirohi that the hardships were to a great extent mitigated and the poor were enabled to keep their body and soul together. It would not be out of place here to append below a statement showing the average rate of food grains during the years under report.

Rate per Rupee.

Years.	Wheat.	Barley.	Muka.	Bajra.	Gram.	Krunj.	Oorad.	Kura.	Barti.	Kulath.
1898 ...	10	16	13	10	12	12	8	20	19	17
1899 ...	7½	9	9	8	9	9	7	11	10	10

Public Health.

4. The plague which had broken out in November, 1897 at Tauri, Chudual, Sanpur, Bardra and Kalandri lasted upto the end of that year, but unfortunately it again made its appearance in January, 1898 and was not uprooted till the end of April of that year. There were 140 cases of plague and 117 deaths (*vide* Report of the special plague officer); the ratio of cases to population being 2 to 100 and the percentage of deaths being 1·67 only. Strict measures were adopted for the prevention of plague. Our thanks are due to Drs. Grant and Adams who left no stones unturned in rooting out the dire disease. Whilst plague is still devastating Bombay Presidency and Marwaries of this place frequent the metropolis of Daccan, it is solely through the efforts of these gentlemen and untiring zeal and energy displayed in safeguarding the interests of his subjects and personal supervision exercised by His Highness the Maharao Sahib Bahadoorji that the state is as free as ever from the epidemic. Precautions are still taken to guard against the evil.

It may be observed here that the Thakur of Kalandri in whose village plague was raging did render no assistance in rooting it out. He made himself conspicuous by his absence from the place and returned after the disappearance of the disease. Mr. Martindale visited the place and His Highness Maharao Sahib Bahadoorji deputed his own Dewan on his behalf to go to the place and devise means against it, as no assistance was rendered by the men of the Thakur and difficulties were placed in the way of Dr. Grant. The State had to incur an expenditure of Rs. 6,552-8-0 and Rs. 632-2-9 in the years 1898 and 1899 respectively in adopting measures for uprooting the bubonic plague. Otherwise the public health was good. No other epidemic visited the state and it was quite safe against cholera and small-pox.

Changes.

5. Singhi Javaherchund held the office of the Dewan upto May, 1898 ; on his resigning the office Meheta Dayalalji Ijatram of Ahemedabad was appointed as Dewan and remained in office upto September, 1898. He was succeeded by Mr. Milapchundji Anundchund who had been an old servant of the State and had acted as Dewan on different occasions. He resigned his office in September, 1899 and Singiji Javaherchundji was re-appointed as Dewan. B. Madan Gopal Lal Bhatnagar, B. A., L. L. B. (Allahabad) was appointed as Assistant Dewan late in December and took over charge of the office from Meheta Hiralal in the month of January, 1900.

There was no other change.

Political.

6. The relations with the British Government were as they should ever be, peaceful and loyal, and friendly. Owing to the accidental death of Kanji of Magriwada his brother Jagirdárs taking up his cause had assembled at Rohuá, but most of them were brought to terms by the personal exertions of His Highness the Maharao Sahib Bahadurji, and all of them accepted the terms arrived at by His Highness. Relations with the Jagirdárs, on the whole, were friendly and cordial.

Revenue.

7. The Revenue Department was throughout the years under report in the charge of Singiji Samrathmulji who works hard and well. He rendered assistance in work of other branches also. The following figures show the total revenue and expenditure of this State for the years 1898 and 1899 as compared with those in the foregoing years.

YEARS.	TOTAL REVENUE.			TOTAL EXPENDITURE.		
	RS.	AS.	P.	RS.	AS.	P.
1896	3,82,325	9	3	4,45,942	14	0
1897	4,21,587	14	9	4,20,857	12	3
1898	3,97,858	9	0	4,09,214	11	0
1899	3,34,153	14	9	3,99,936	5	6

From the above statement it would appear that the receipts during the year 1899 were low and it may very easily be explained by the fact that owing to the raging of the famine realizations from land revenue were necessarily low.

In the year 1898 a large amount was spent in paying off unpaid items incurred in the construction of buildings and prevention of plague, and in the year 1899 famine expenses formed also a part of the expenditure.

In the year 1899 the Talati system of land revenue was started in the State; it worked on for sometime and as rains failed and the attention of the officials was engrossed by other important matters the work was stopped.

Neemach Thakur did not submit the accounts of his pata in time and it is not included in the statements and ^{his} ~~the~~ dealings do not appear to be frank.

Customs.

8. The Customs Department was during the years under report in charge of Babuji Sarat Chandra Roy Choudhary.

The following statement would show the receipts and expenditure under this head during the years under report as compared with those in 1896 and 1897.

YEARS.	RECEIPTS.			EXPENDITURE.		
	RS.	AS.	P.	RS.	AS.	P.
1896	1,21,461	5	0	32,295	5	6
1897	1,46,163	1	3	34,488	13	3
1898	1,56,605	7	0	35,703	12	3
1899	1,49,634	5	9	35,021	2	0

The sum of Rs. 16,897-7-6, was paid to Jagirdars for their Haks and the sum of Rs. 23256-1-3, was remitted to merchants. The sum of Rs. 730-9-3, was paid to the servants of the Department for detecting frauds &c. The revenue under this head has been steadily increasing. There had been no fair at Bamanwadji in the years under report.

Forest.

9. The Forest Department was also in the charge of Babuji Sarat Chandarji. The statements 5 and 6 show the receipts and expenditure under this head. The Abu forest is under the charge of a special forest officer and separate report is submitted in connection therewith.

The forests were under the control of Forest Ranger Ranjit Singhji. The work did not proceed as it ought to have done and he resigned his post in December, 1899 and it is proposed to fill his place by a passed candidate from the Forest School, Dehra Dun.

Abkari.

10. The figures given below would show the Revenue under this head as compared with that in the previous two years.

YEARS.	Rs.	AS.	P.	YEARS.	Rs.	AS.	P.
1896	13,995	15	3	1898	16,095	1	6
1897	13,537	13	3	1899	18,961	10	3

From the above figures it would appear that there has been a perceptible increase under this head. This is due to the introduction of a regular contract system.

Public Works.

11. As stated in para 17 of the last Report the construction of the Abbott Tank and road to Matur Matuji in round numbers did cost about Rs. 65,000; but that amount was inadequate to finish such stupendous tasks and some Rs. 9,385-6-6 were spent on the works in the years under reference.

The repairs of Abu Road drainage did cost Rs. 200.

Further sums of Rs. 7,049-4-6 and Rs. 5,931 were spent towards the construction of Sheoganj and Sirohi Hospitals during the years under report. Wall round the zanana palace did cost about Rs. 3,611, and Rs. 4,600 were paid towards the construction of a wall in the Kaisharganj garden. The sum of Rs. 20,000 was contributed towards the Jubilee Tank. The full amount has not been credited in the accounts of the State, as the sum has been paid from Sharneswarji's fund and the amount would be credited to the Raj accounts on adjustment of accounts from Public Works Department. Besides the above items the sum of Rs. 19,126-2-9 was spent on other buildings.

Irrigation.

12. In this country the irrigation of Rubi crops is made by water of wells brought up by Persian wheels. The system of advancing money for digging wells is peculiar to this territory and has been fully described in previous reports. 52 and 58 parwanas were issued for wells in the years 1898 and 1899, respectively

The relief works in the State would take the form of the construction of tanks, and the tanks are proposed at Rohera, Chandella and Sirohi.

The construction of Diamond Jubilee Tank has been entrusted to the Public Works Department and the work is progressing well.

When these works are constructed they will prove a boon to the cultivating public.

Boundary.

13. The demarcation of the first two sections of Sirohi Meywar boundary was completed under the supervision of Col. Percy Smith and Mr. E. R. Penrose, Commissioners.

Captain Bruce, the Special Boundary officer decided 6 cases as noted below :—

1. Bhatana *v.* Padar.
2. „ *v.* Makawul.
3. „ *v.* Do. regarding a deserted village Padroora.
4. Vikanwas *v.* Reodar.
5. „ *v.* Malawa.
6. Bhatana *v.* Bootdi, amicably.

Criminal.

14. There was no change in the constitution of courts in the years under report and the arrangements for the purpose of dispensing justice in criminal courts remained the same as reported last.

On referring to the statement No. 7 it would appear that the number of crimes brought to light during the years 1898 and 1899 is higher than that of the previous two years. The number of offences reported during the years 1898 and 1899 is 739 and 806 as compared with 580 and 586 in the years 1896 and 1897.

It would be observed that the offences coming under hurt are falling off as compared with the previous years, whilst there has been a rise in the offences of theft, cattle lifting and dacoity &c. It appears that propensity towards crimes is steadily fading away; the swelling of the number of offences against property is to a great extent explained by the prevalence of the universal dire famine.

Three cases of robbery were reported in 1896 and only one of robbery and one of dacoity were brought to light in 1897, whilst against these figures there are 6 robbery cases in 1898 and 8 robbery and 5 dacoity ones in 1899. The offenders in one of the robbery cases of 1898 and in two dacoity cases of 1899 were apprehended and brought to book. Police is investigating other cases. It might be mentioned here that 3 robberies in 1898 and one robbery and one dacoity in 1899 were committed in the Khalsa lands.

In 1898, property lost on account of offences of dacoity, highway robbery, theft, house-breaking and cattle lifting amounted to Rs. 14,174-14-6 whilst that recovered to Rs. 2,120-2-6; the amount recovered being 14·9 per cent to that lost.

In 1899, property lost amounted to Rs. 28,806-8-9 and the property recovered to Rs. 6,968-3-3; the property recovered being 24·25 percent to that stolen.

The work done by different criminal courts can be seen from statement No. 8. The Judicial officer seems to have worked hard.

Statement No. 11 deals with the working of appellate criminal courts.

The distribution of punishment would appear by a reference to form No. 10.

No cases of infanticide were reported during these years.

The above statements do not include cases decided by Neemach Thakur, as no reports have been received from him ; (a separate report on the subject would follow). The work of the settlement of criminal tribes is progressing satisfactorily.

Civil.

15. The constitution of the courts had been the same as reported last. The only change worth noting is that special courts hearing old suits were amalgamated into the court of the Judicial officer.

The suits to the aggregate value of Rs. 1,23,027-2-6 and Rs. 51,764-0-10 were instituted in 1898 and 1899 respectively ; and the receipts from court fees amounted to Rs. 13,214-15-0 and Rs. 6,046-0-6 in 1898 and 1899 respectively. The traces of famine are perceptible here also and fall of revenue under this head in 1899 is necessarily due to it.

From a perusal of form No. 13 it would appear that 133 original suits were pending in the beginning of the year 1898 and 740 were instituted during the year, thus making a total of 873 ; out of these 750 were decided and only 123 remained pending at the close of the year. In 1899, 524 new suits were instituted, thus giving us a total of 647 cases ; out of these 558 were disposed off and only 89 remained pending at the close of the year. The work done during the year appears to be satisfactory. Some 47 appeals were pending at the close of 1897 in the courts of Dewan and Judicial Officer, and 45 were filed during the year. 48 appeals were disposed off and 44 remained pending at the close of the year. 42 new appeals were filed in 1899, thus giving us a total of 86. 40 appeals were disposed off and only 46 remained pending at the close of the year 1899.

Jail.

16. The total number of admissions in the Sirohi Jail during the years 1898 and 1899 were 101 males, 8 females, and 151 males and 7 females respectively which, together with those remaining at the end of preceding years, made a total of 206 males and 11 females in 1898 and 241 males and 11 females in 1899.

The total number of prisoners remaining in the jail at the end of the years 1898 and 1899 were 90 males and 4 females and 93 males and 1 female respectively. The daily average strength of the convicts was 98.64 males and 4.79 females in 1898 and 79.61 males and 4.64 females in 1899.

There were only 12 juvenile offenders in 1898, whilst the number had fallen off to 2 in 1899.

The total cost of the maintenance of Sirohi Jail amounted to Rs. 5,482-5-0 and Rs. 5,521-5-9 in 1898 and 1899 respectively, as per detail given below.

YEARS.	<i>Diet</i>			<i>Clothing</i>			<i>Mis-cellaneous</i>		
	Rs.	AS.	P.	Rs.	AS.	P.	Rs.	AS.	P.
1898	4,060	8	6	463	5	3	958	7	3
1899	3,437	9	6	403	13	6	1679	14	9

The prisoners sentenced to hard labour were employed on building works and the repairs of roads &c., besides working in the jail garden and lithographic press. Carpet making was also introduced for sometime, but as the man who was in charge of the work went away it had to be stopped. No cases of breach of discipline were reported during the years under report. There were only 4 deaths in the year under report and one was hanged.

The statement showing the average sickness, strength, &c., of persons in the Sirohi Jail:—

No.		1898.			1899.		
		Male.	Female.	TOTAL.	Male.	Female.	TOTAL.
1	Daily average strength	98.64	4.79	...	79.61	4.64	...
2	Maximum strength	115	8	...	100	8	...
3	Prisoners treated by H. A.	2.05	.06	...	43
4	Daily average of sick	2.05	.06	...	2.68
5	Deaths	4	4	1	...

Protection.

17. The Raj Police was as usual under the supervision of Fouzdar Chensingji for the whole term. The State maintained its Sibandy at a cost of Rs. 83,262-12-0 and Rs. 81,265-2-0 in the years 1898 and 1899 respectively.

The Jagir lands were taken care by Jagirdars and their men, but the State Police had often to supervise the working of Jagirdars.

A Naib Fouzdar is deputed in each Tehsil with a number of sepoy at his back.

The police had a busy time and a perusal of the statements (Criminal) will show that they have been doing some work.

Dispensaries and Vaccination.

18. There are two Charitable Dispensaries in the State. One is at Sirohi and the other at Sheoganj. The Sirohi Hospital has been placed in the charge of a First Grade Hospital Assistant. Both of these are popular.

The new Hospital buildings have been completed and the Dispensaries are under the direct control of the Residency Surgeon. Two more vaccinators were added to the staff in 1898.

Sanitation.

19. There is a Municipality at Abu Sanitarium. The State contributes Rs. 3,000 annually.

Sanitary and Conservancy establishments are maintained at Sheoganj and Abu Road. Abu Road has got a Drainage.

Education.

20. As already reported there are four schools in the State. They are in the same condition as reported last.

Post Office.

21. The Post Offices in the State were under the control of the Deputy Postmaster General, Rajputana. They are working very well and the public appreciates them.

During the years under report no new Post Office was opened.

Famine.

22. The continual holding off of rains caused much distress to the people and cattle at large. The grass and fodder became scarce and cattle began perishing. The rabaries and lower classes were in great distress and famine was declared in the last quarter of the year 1899. His Highness the Maharao Sahib Bahadoorji with his wonted kindness and generosity opened his forests to the people and allowed free cutting of wood (precious wood excepted) to enable poor people to gain their livelihood. On famine assuming graver aspects it was proposed to open Relief Works and Poor Houses and the services of an experienced famine officer and a loan of two lacs were asked for from the Government. Our best thanks are due to Col. Wyllie, the Resident, Western Rajputana States and other Political Officers who helped us by making valuable suggestions and procuring the services of Mr. Knight, Assistant Engineer as Special Famine Officer. The Imperial Government has further helped us by granting a 4 per cent loan of 2 lacs to the State. Godowns of grass and fuel were opened by His Highness. Cooked food was distributed to the poor in different Tehsils in addition to the usual Sadavrats.

However the famine was not so keenly felt here as in other States and there was comparatively less emigration on account of famine in this State. As the stock of grain was quite enough no great difficulty was felt for the State.

Visits.

23. Colonel Yate, Resident, W. R. States paid a visit to Sirohi on 27th January, 1898, to supervise plague arrangements.

Col. Yate paid visits to Sirohi on 28th July, 1898 and 11th November, 1898. Mr. Martindale, Agent Governor General accompanied by his First Assistant visited Sirohi on 25th November, 1898.

Col. Wyllie, Resident, W. R. States visited Sirohi on 17th February, 1899.

Col. Yate, Resident, W. ^{R.} States visited Sirohi, and His Highness the Maharao Sahib Bahadoorji being accompanied by him paid a visit to His Excellency Lord Curzon of Kedleston, Viceroy of India at Simla in the month of July. His Highness the Maharao Sahib Bahadoorji visited the Maharaja of Ulwar on his way to Simla. On return from Simla visits were paid to the Maharajas of Bharatpore, Jeypore and Jodhpur.

Expenses among Rajputs.

24. Expenses on the occasion of marriages and deaths among Rajputs were closely supervised. Walter-krit Rajputra Hitkarini Sabha is doing good work.

Deaths.

25. Raja Prathirajji of Mandar and Thakur Moolsingji of Padin^{va} and Bharatsingji of Bhatana died in 1899.

General.

26. His Highness Sir Kaishri Singh Bahadoorji Maharao Sahib of Sirohi has been taking a keen interest in the administration of the State. He devotes some hours daily to looking after the important State matters and hearing the appeals of the public. Uninterrupted peace and prosperity reign in the State. The famine in its direst shape is devastating Rajputana, but its keenness has to a great extent been mitigated by the sympathetic efforts and generosity of His Highness.

Statement No. 1

REVENUE RECEIPTS.
